Eighty percent of success is showing up.

- *W. Allen*

He who asks is a fool for five minutes; he who does not ask remains a fool forever.

If I had eight hours to chop down a tree, I would spend 6 hours sharpening an axe.

Don't worry if it doesn't work right. If everything did, you'd be out of a job

"First, solve the problem. Then, write the code."

The computing scientist's main challenge is not to get confused by the complexities of his own making.

One of my most productive days was throwing away 1000 lines of code.

Ventajas :

- Java es el lenguaje de programación más usado del mundo
- Para crear aplicaciones Android necesitas saber Java
- Java es multiplataforma
- Es quizá el mejor lenguaje para aprender.

"Saying that Java is nice because it works on all OSes is like saying that anal sex is nice because it works on all genders."

"Fine, Java MIGHT be a good example of what a programming language should be like. But Java applications are good examples of what applications SHOULDN'T be like."

Days 1 - 10
Teach yourself variables, constants, arrays, strings, expressions, statements, functions,...

Days 11 - 21
Teach yourself program flow, pointers, references, classes, objects, inheritance, polymorphism,

Days 22 - 697
Do a lot of recreational programming. Have fun hacking but remember to learn from your mistakes.

Days 698 - 3648
Interact with other programmers. Work on programming projects together. Learn from them.

Days 3649 - 7781
Teach yourself advanced theoretical physics and formulate a consistent theory of quantum gravity.

Days 7782 - 14611
Teach yourself biochemistry, molecular biology, genetics,...

Day 14611
Use knowledge of biology to make an age-reversing potion.

Day 14611
Use knowledge of physics to build flux capacitor and go back in time to day 21.

Day 21
Replace younger self.

As far as I know, this
is the easiest way to
"Teach Yourself C++ in 21 Days".
